## Scoring – Score each objective below based on this scale:

### Score Performance

- 5** Candidate independently accomplished the objective without noticeable errors, and showed creativity and anticipation of instructor and diver needs in the process.
- 4** Candidate accomplished the objective with no noticeable errors and without significant help from instructor or staff.
- 3** Candidate accomplished the objective adequately with a few insignificant errors. Instructor correction and intervention limited to brief reminders or suggestions.
- 2** Candidate showed rudimentary understanding of tasks required to meet objective, but made significant errors or omissions. Instructor correction and intervention was required for a competent result.
- 1** Candidate made many or substantial errors and omissions in attempting task, or task not completed.

The following lists all objectives from the Practical Application Module. Some do not apply to all internship phases or exercises. List the score, or NA for those that don't apply, by each objective. Successful performance requires a score of 3 for each objective. **If the Candidate earns a score lower than a 3 on any objective the entire session must be repeated.**

Consult the "PADI Divemaster Course Instructor Guide" in the PADI Instructor Manual for details on each objective.
